Action of the House on the Petition to Congress.

Ibreeial Dispatch is the Courier-Journal.

Naswylla, Jan. 14.—After the morning business was gone through with is the House to-day the resolution looking to petitioning Congress was taken up in connection with the Senate resolution thanking President Grant for his course in reference to Tennesses. After a sme little discussion the Grant resolution was adopted by a vote of 46 to 18. Every Republican in the House voted against it. The other resolution was then discussed at some length. A Radical member offered an amendment indorsing President Grant's administration. A motion to lay the amendment on the table was negatived by a vote of 28 to 34. A motion to lay the resolution and amendment on the lable was lost by 18 to 44, all the Republicans except one voting in the affirmative. After a good deal more of wordy eloquence, in which members insisted that the adoption of Mr. Fleming's suffrage resolution yesterday and the resolution and amendment was indefinitely postponed by a vote of 42 to 15.

There was nothing of special interest transacted in the convention.

But our rulers will not do this. Several of the "rebelhous States" are yet to be reconstructed, and this must be done in the interest of the party in power, no matter at what sacrifice of right, justice and law.

In Georgia the work of Congressional in Congress

In Georgia the work of Congressional reconstruction goes bravely on. The earpet-baggers and scalawage, with "Gov."

Bullock at their head, are making a last desperate effort to maintain their hold upon the plunder of the State. For the last week or as they have held nightly caucuses, in which there has been far more of storm a short time in the United States army rethan of sunshine, and constant telegraphic | signed his commission and entered that of communication has been kept up with Congress, the scoundrels urging that body the French and English allies in the

The scrimmage now going on in Paris is peculiar. The American Bonapartes are Republicans and so are the agitators in the Corps Legislatif. It may afford some of them an opportunity, and a Patterson may yet occupy the Tulleries as Prince President just as Louia, a Beauharnais, occupied the Palace in 1349. At all events the story is worth retelling as more or less appropose of transpiring events in France to and patriotism as a band of Turk-ish prates. Its action in the case of Georgia was a shame blacker and deeper than the lowest depths of human shame. There is no doubt that the vilapropos of transpiring events in France to which the Bonapartes, their past, present and future, bear such close relation. Jerome Bonaparte acted badly enough to Miss Patterson. Nor has his family done lainy now in course of perpetration by the unwashed miscreants at Atlanta will be sustained by Congress. The "Georgia

be sustained by Congress. The "Georgia bill" was designed expressly to place the control of the State in the hands of the threves and cut-throats who are headed by Bullock, and if the provisions of the bill are insufficient for the accomplishment of the work, Terry with his bayonets is there to supply all the additional power that is needed. The people of this country, omnipotent as they are, must submit to these worse than lawless measures of a tyrannical and unprincipled Congress that the whip-hand of the nation, and the nation must tamely endure every outrage that the whip-hand of the nation, and the nation will be the public to either produce Lord Ainsley or exhibit his photograph.

Baby-talk.

Poor babies have a hard time of it trying to live in France. When the parents are not rich, in many instances they are sent to the country to be recared by some peasant family for a consideration, and but few of them ive more than a year, what with the neglect and cruelty practiced upon them. Babies are regarded as inxuries which only the rich can aford. They are so much in the way of their mothers, who act as clerks, saleswomen or book-keepers to their husbands, that they cannot receive that care they should, and therefore are packed off to the country to be brought up by hand, like "Pip" wax. Recent investigations into the matter of baby farming reveal an extraordinary state of al. fairs. The number of deaths in comparison to the number of births as frightfully large. Thousands of infants are sent from Paris to the country, and but few ever return. The claims upon the French woman of the lower claims are sent from Paris to the country, and but few ever return.
